Important Safeguards

How to Use

Clean all parts before first use.

Adding ingredients:

Select cooking pot with the control panel facing up.

Pouring water:

Open the base and add water up to the MAX line. Replace and secure the lid.

Cooking & Controls

LED indicator lights:

Press to turn on/off.

Press to automatically blend after steaming.

Press to set timer.

Press to set timer and function buttons.

Steam and Blend - Automatically blend after steaming:

Press "Steam" and "Blend" sequentially to start steaming and blending. The timer will count down 50 minutes. Once the timer reaches 0, the machine will automatically blend the food. The machine will automatically stop when the timer reaches 0.

Steam Only:

Press to turn on/off.

Press to set timer.

Press to automatically blend after steaming.

Press to set timer and function buttons.

Removing & Replacing the Driveshaft

Always make sure Freestall & Driveshaft are properly inserted and locked into position before removing.

Cleaning:

Always remove the driveshaft before cleaning.

Fill the water tank with warm water and add a little vinegar to the base. Use a soft cloth to wipe down the base and driveshaft.

Open the base and add water up to the MAX line. Replace and secure the lid. Steam for 10 minutes. Then remove the bowl and let it cool down. Wipe the inside of the bowl with a soft cloth.

Refrigerate or freeze cooked food in an airtight container. Once cooled, it can be stored in the refrigerator for up to 5 days or frozen for up to 3 months.

Troubleshooting

Condition:

Possible Cause:

Possible Remedy:
